1 Identifying Crosscutting Concerns Using Fan-In Analysis
Marius Marin, Arie Van Deursen, Leon Moonen
December 2007 **ACM Transactions on Software Engineering and Methodology (TOSEM)**, Volume 17 Issue 1
Publisher: ACM

Full text available: 📄 pdf(1.76 MB)   Additional Information: full citation, abstract, references, index terms

Aspect mining is a reverse engineering process that aims at finding crosscutting concerns in existing systems. This article proposes an aspect mining approach based on determining methods that are called from many different places, and hence have a high ...

Keywords: Aspect-oriented programming, crosscutting concerns, fan-in metric, reverse engineering
